[Contact us](#)

As we find ourselves approaching the halfway mark of the current financial year, it's natural to reflect on evaluating our progress, while propelling ourselves further to stay in sync with our Alums' needs.

It's been a year since we went live with [Alumni Hub](#) – an interactive platform and a dedicated space that will enable our 30,000+ Alums to connect with each other and us in more meaningful ways. It is your gateway to stay in touch with us and your fellow alumni. While we've seen encouraging footfalls, we invite more of you to use this secure space to facilitate alumni connections, engagement, interaction, future networking opportunities, and much more.

In this edition of Connect, we're #PwCProud to shine the spotlight on **Souvik Maitra** and **Pradyot Aramane** who share their memories of their time in the firm. PwC India has also been recognised as one of the **Top 50 Best Companies To Work For** and the leading Professional Services firm in India's Best Workplaces by the Great Place to Work Institute (GPTW). And lastly, PwC India and CNBC TV18 are proud to present [CEO Dialogues](#) – a first of its kind initiative that convenes influential industry leaders, fostering insightful conversations on important business issues shaping India's growth story.

We are excited to share our updates with you on a regular basis. You can also join our [Alumni LinkedIn Group](#) to stay abreast of all that is happening around the firm.

You remain integral to our journey and we are grateful for your contributions. We are #PwCProud to have you stay connected with #YourNetworkForLife.

Warm Regards,

The Alumni Team
PwC India

Alumni speak

Souvik Maitra

You never leave the PwC family, even if you leave the firm

Read more [here](#)

Pradyot Aramane

The learnings I received from PwC will stay with me forever.

*To read our Alum stories, you need to be registered with the PwC India Alumni programme. If you've registered with us, you'd have received via email an Activation link to complete your registration and log in. In case you haven't, go [here](#).

#FromCommitmentToAction

The Directors and above cohort recently mentored budding social entrepreneurs in the North East region of India and West Bengal. These social innovators are part of the School for Social Entrepreneurs (SSE) India's flagship nine-month [Social Start-Up Fellowship Programme](#) where one entrepreneur is mapped to a PwC mentor to guide them on their journey. Through our collaboration with SSE India, the PwC India Foundation (PwCIF) is bringing our firm leaders' expertise, insights, knowledge and guidance to these budding entrepreneurs to help take their start-up ideas to the next level.

On the back of the robust on-ground and secondary research, the PwC-ORF joint study titled: [Climate, community, cooperation: An Indian approach to adaptation in the Global South](#), seeks to highlight best practices for climate hazard management and resilience building across diverse Indian states, and identify opportunities for upscaling these approaches by synergising stronger partnerships among governments, citizens, and private sector companies. Read the full report where we decode India's complex climate challenges and the strategic adaptation efforts

Meet our solvers

Creating differentiation

PwC in India has been recognised as one of the Top 50 Best Companies To Work For and the leading Professional Services firm in India's Best Workplaces by the Great Place to Work Institute (GPTW). Our achievement in this forum is a significant achievement and positions us as an employer of choice in the industry.

Very proud to announce that the PwC product, 'Anomaly Detection Platform' has been awarded the '#ArtificialIntelligence Solution of the Year' at the BFSI & FinTech Conclave and Awards 2022! You can learn more about Anomaly Detection Platform and our products portfolio [here](#).
